Evaluation

IDENTIFIERS Texas

ABSTRACT

Thirty-two master teachers, working in grade-level and instructional area groups and using an evaluation instrument developed by a university center for career development and occupational preparation, rated 66 sets of career education materials by 15 criteria, such as organization; clarity of objectives; appropriateness to grade level; and organization, clarity, and appropriateness of classroom activities. Three criteria relate to the necessity and possibility of modification of the materials for usability. An annotated list of the materials is appended; the largest portion of the document is devoted to tables representing the ratings of each set of materials by each set of criteria. A brief summary of the findings reveals that many of the materials were rated as excellent, although only 15 sets were judged to be organized to fit specifically the intended grade levels. Half the materials needed modification before use, because of ethnic or socioeconomic differences in particular school districts. The teachers reported that 45 sets of materials suggested reasonable classroom activities. The evaluation is still in process, and 55 sets of materials not yet evaluated are appended, as is the four-page evaluation form. (AJ)

Cooperating Agencies

The problem of implementing career education has been both a national and state concern. Region Education Service Centers IV, V, VI, and XII together with the Center for Career Development and Occupational Preparation at Texas A&M University designed a plan of attack on the problem of career education implementation. The initial phase of this plan involved the systematic review of materials in career education and the probing of attitudes of teachers and administrators within four regions of the State of Texas. With funding from the Texas Education Agency, the initial activities have been completed, and this paper reports the evaluations of career education materials by a group of master teachers.

This project would have been impossible without the help and cooperation of the executive directors, career education consultants, and 32 master teachers from Regions IV, V, VI, and XII. The geographic areas and the student populations included in these four regions has provided an opportunity to study career education instructional materials as they relate to both urban and rural school districts, and a diverse composition of students based on socio-economic status and culture. Because of the diverse student populations found in Regions IV, V, VI, and XII, these findings should be applicable to other areas of the State of Texas.

In order to create a viable organization for proposing, obtaining, and administering interdisciplinary programs supported by outside funds in the critical area of career education, a Center for Career Development and Occupational Preparation (CDOP) to be administered in the College of Education at Texas A&M University was established June 21, 1972. This Center is providing a key leadership role to education generally in our state, and in furnishing

needed services to occupational preparation programs for business and industry.

The Center has a staff that is drawn from many disciplines including

Agriculture, Education, and Engineering. The interdisciplinary staff is
augmented by use of other unique resources at Texas A&M University and in the

State of Texas. The Center for Career Development and Occupational Preparation
performs the following functions:

- Designs, field tests, produces, and disseminates innovative curricula and instructional materials and products in the broad field of career development and in selected fields of vocational-technical education.
- 2. Creates and offers selected training programs for teachers of career education and occupationally oriented programs.
- 3. Provides technical assistance to (1) local education agencies, (2) the Texas Education Agency, (3) community colleges, and (4) other post-secondary institutions, on matters relating to programs and facilities for career education and the vocational-technical field.
- 4. Conducts planning, research, and evaluation studies associated with the target field.

Information About Authors

Christopher A. Borman is currently assistant professor of Educational Psychology at Texas A&M University. He is a counselor educator and director of the Center for Career Development and Occupational Preparation.

Dr. Borman completed a B.S. degree in social studies from Indiana
University in 1956. Then he spent two years in the United States Army as
an artillery officer with the rank of lieutenant. In 1958, he began his
teaching career at Smithville School in Smithville, Indiana, as a mathematics
and social studies teacher. In 1959, Borman moved to Technical Vocational
High School in Hammond, Indiana, where he taught mathematics for six years.
Northwestern University in Evanston, Illinois, in 1963 awarded him an M.A.
in Education which was completed as a part-time student. During the 1965-66
school year, he began serving as a full-time counselor at Technical Vocational

High School. The Hammond school system granted him a sabbatical leave for the 1967-68 school year to work on a doctorate in counseling and guidance at Indiana University. He returned to Technical Vocational High School to serve as a counselor for two more years until completion of his Ed.D. degree in 1970.

Upon completion of his doctorate, Borman assumed his present position as assistant professor in the College of Education at Texas A&M. He is rapidly being recognized as a state leader in the preparation of counselors and as an authority on career education. Dr. Borman has served as consultant to local education agencies and has numerous publications related to occupational education and career development.

Walter F. Stenning is currently associate professor of Educational Psychology and Educational Curriculum and Instruction, Texas A&M University. He held previous faculty positions at the University of Texas at Austin and San Fernando Valley State College, Northridge, California. Dr. Stenning holds a Doctorate of Philosophy degree from the University of Texas at Austin, with specializations in Psychology and Research Methodology. He has additional experience as Assistant Director of a four year cross-cultural research project focusing on problem solving behavior of school children in eight cultures throughout the world. Further, he has worked extensively in the areas of educational curriculum development and evaluation, being senior staff member both at Far West Educational Laboratory, Berkeley, California, and Southwest Educational Development Laboratory, Austin, Texas. Dr. Stenning has served as a consultant to school districts throughout the country, regional service centers in Texas and the Texas Education Agency. He has published within education in the areas 1) evaluation of early childhood education 2) evaluation of effectiveness of mini-courses in modifying instruction within schools of the

United States and 3) cultural variable effects on achievement and self concepts in education.

Dr. Stenning is certified by the State of Texas Board of Psychological Examiners as a Licensed Psychologist, holds membership in the American Psychological Association, the American Educational Research Association, the American Statistical Association, American Association for the Advancement of Science, and Inter-American Society of Psychology.

Introduction to Report

The problem of the introduction of career education into the schools and its acceptance by the schools in the State of Texas involves a multitude of issues that have not been fully explored by any previous research. One of these issues involves the degree to which curriculum materials for career education developed throughout the United States are directly usable without or with modification in various school districts in Texas.

A selection of highly competent teachers in Regions IV, V, VI, and XII was organized into teams to evaluate career education materials. These teachers were provided a method of evaluation, and then they systematically evaluated quality career education materials that had been developed within the State of Texas and also in selected areas in the United States.

Strategy of Study

The evaluation of career education materials first involved the identification and collection of career education materials by CDOP staff. All available sources including national publications, state reports, recognized authorities, and university library facilities were utilized in the collection of these materials. Commercial publishers were contacted, but most of the materials

collected were from school districts, state agencies, universities, or funded projects and were not in final printed form since most of the materials were still in various stages of development. The CDOP staff did an initial screening of the materials so that the teacher evaluators would review only quality materials. Each group of teachers evaluated many sets of career education instructional materials, and a list with a brief description of all materials evaluated is included in the Appendix.

Teachers of the highest quality from Regions IV, V, VI, and XII were asked to serve as judges of career education materials. Eight panels were constituted with each panel having four members representing the four education service centers. The panels or groups were selected from instructional areas in the following manner:

```
Group 1 (K-1)
Group 2 (2-5)
Group 3 (6-9)
Group 4 (10-12 Mathematics Science)
Group 5 (10-12 Social Studies)
Group 6 (10-12 Language Arts)
Group 7 (10-12 Vocational Education & Industrial Arts)
Group 8 (10-12 Vocational Education & Industrial Arts)
```

Once the teacher evaluators had been identified and agreed to participate, they were assembled in a one-day meeting where their responsibilities to this project were described. An evaluation instrument developed by CDOP staff to assess the usability of career education materials in classroom settings was presented to the teachers for review and discussion (see Appendix). The panels were provided with sample sets of materials to review and evaluate using the instrument so that the teachers would understand the evaluation process required by the project. At the end of this one-day meeting each teacher was given sets of career education materials to take home for review and evaluation. Additional materials were sent to all of the 32 master teachers over a two month period of time. At the end of two months the teachers were assembled for a two-day working

meeting. Their evaluation reports were reviewed and collected by project staff. In addition, the eight groups of teachers evaluated career education materials that had just been identified and collected by Donald Johnson, CDOP staff assistant.

Findings of Study

The findings of this study are visually displayed in Tables 2 through 67. The title of each table reflects the name of the career education materials that were evaluated, and the reference below the title directs the reader to a brief description of the materials in Appendix A. Since there were eight groups of teachers evaluating career educatic. instructional materials based on grade level and instructional area, the materials are listed in the Appendix under the group or groups that evaluated them. For instance, "Group 3—Item 29" refers to the 29th item in the list of materials evaluated by the teachers in Group 3. Because some materials crossed instructional areas, these materials were evaluated by more than one group of teachers, but a description of each set of materials appears only once in Appendix A with references to the original description when the materials are listed under subsequent teacher group headings.

The teacher responses to 15 of the most critical items on the materials evaluation instrument are included in each table. The results are listed under the group or groups of teachers rating the materials according to the number of teachers responding to each item. If more than one group of teachers evaluated a set of materials, the table also displays the total number of teachers responding to each item on the evaluation instrument. For each of the 15 items on the materials evaluation instrument, there should be no more than four teacher responses to each item per teacher group since each group had four teachers. There are a few exceptions to this rule since some of the instructional materials were rated in parts across groups, and the ratings then were summed for each teacher group.

A few tables have footnotes indicating that the results were summed in this manner.

The identification and collection of career education materials by CDOP staff has continued after the master teachers completed their evaluations. Included in Appendix B is a supplemental list of career education materials that were not evaluated. All of the materials listed and described in Appendix A and Appendix B are available for review at the CDOP resource center on the campus of Texas A&M University.

Biographical information on the 32 master teachers is included in Table 1 to assist in interpreting the findings in Tables 2 through 67. Some of the variation in teacher ratings within and between groups can be explained by the differences in their educational and professional backgrounds.

Summary

A selection of highly competent teachers in Regions IV, V, VI, and XII were organized into teams to evaluate career education materials. After staff from the Center for Career Development and Occupational Preparation had identified and collected quality career education materials, the teachers using a materials evaluation instrument developed by Center staff systematically evaluated these materials. The outcome of this study is the combined professional judgment of 32 master teachers in subject matter areas critical to career education regarding:

- 1. Usability of existing career education materials.
- 2. Needed modifications in existing career education materials.
- 3. Identification of areas in career education void of usable materials.

Of the 66 different sets of career education materials that were evaluated, only 15 sets of materials were rated as being organized to specifically fit the intended grade levels. However, the teacher evaluators did rate 39 sets of these materials as having classroom activities appropriate for the grade levels that the teachers taught. For the same 66 sets of materials, the teachers reported that 45 sets had suggested classroom activities that would be reasonable in time and effort to carry out. The teacher evaluations also indicated that half of the career education materials would have to be modified before being used in classrooms in Regions IV, V, VI, and XII. Many of the materials that were evaluated received excellent ratings by the teachers, and the fact that a set of materials was rated as being in need of modification should not be considered necessarily as a reflection on the quality of the materials. In many instances the teacher evaluators found a set of career education materials

to be well organized with suggested classroom activities that were very reasonable, but they also found that the materials needed slight modifications before being used in their particular school districts because of ethnic or socio-economic differences.

APPENDIX A

Career Education Materials Group 1 (K-1)

1. A Guide for a Program of Awareness to the World of Work--Grades K-7, (404 pages), 1972

(Table 2)

Wesley Van Matre, Jr., Director of Vocational Education Pharr-San Juan-Alamo Ind. School District Pharr. Texas 78577

This book is divided into two sections. Section One is "Awareness to the World of Work K-6" and Section Two is "Occupational Investigation for Grade Seven. The pages are color coded for easy reference to the different grades. It was designed to be used in the classroom. Each level has its own index with a complete teacher's plan and activities. The last part of the book includes a list of references, a bibliography of A/V and supplementary materials, library books, resource books and a miscellaneous section.

Awareness to the World of Work, 1972 Occupational Orientation Program Pharr-San Juan-Alamo ISD Pharr, Texas 78577

Part of the previously mentioned Pharr program. This short booklet is an introduction to the world of work, also includes purposes, objective, procedures and possible assignments.

2. About...
Melmont Publishers, Inc.
Chicago, Illinois

(Table 3)

A series of books that give information concerning the many aspects of career education. The topics include family helpers, city workers, professional jobs, etc. Melmont also has other fine books that are designed to give information about career awareness.

3. Activity Centered Approach to Learning 1-6
Royal Oak, Michigan
Project L.E.T.

(Table 4)

Supplemental project books to serve as an approach to aid development of activity-centered curriculum. This project includes units suitable for elementary schools that are in separate booklets for grades 1&2, 3&4, 5&6. Format of each lesson lists the activities, teaching procedures, relationships to other subjects, tools and materials required.

4. Career Awareness
Beaumont ISD
Beaumont, Texas

Consultant Coordinators: Gerald Eddleman (Table 5) Elijah Moye

Doris Tatum

This is a series of handbooks giving appropriate units of study for each grade level K-6. Beginning the series is a picture book for level K-1, which presents job titles for each letter of alphabet and a picture for coloring or oral language experience. Each unit booklet follows a theme to reinforce previous levels. Kindergarten theme is "Self-Awareness," grade one is "Family and Home," then "School and Community," "City, Health, Business and Industry,"

and finally for grade 6, "Construction." Format for each level includes Introduction, Scope & Sequence Chart, and Specific Concepts for the theme of the level. Also included are: activities, media, resource information, textbook tips and field trip information.

5. Career Awareness--A Teachers Guide for Elementary Grades, 1972 (Table 6)
State of Arkansas, Dept. of Education
For information contact: J. Marion Adams
Assoc. Director for Vocational,
Technical & Adult Education
Little Rock, Arkansas 72201

This is a 278 page book of activities on the elementary level. Topics, with activities, covered are Community Industries, Agricultural Occupations, Distributive Education, Health Occupations, Business and Office Occupations, Technical and Trade and Industrial Education. Many concepts, resources, and references are given.

6. Career Development and the Elementary School Curriculum, Summer, 1971 (Table 7)
An EPDA Institute at the University of Minnesota
Dr. Wes Tennyson
Dept. of Educational Psychology
University of Minnesota
Minneapolis, Minnesota

This book includes grades K-3 and 4-6. The primary (K-3) units include "Awareness of Self," "Identification with a Worker," "Acquiring Interpersonal Skills," and four more. The intermediate (4-6) units include "Developing a Positive Self-Concept," "Increasing Interpersonal Skills," "Increasing Knowledge About Workers" and four more. Performance objectives and behavioral objectives head each page. Learning activities, related subject or skill areas and suggested resource materials are the three categories for each page. This book is presented in a series of developmental tasks.

7. Career Education Activities Through the World of Work, (159 pages), 1972

ABLE Model Program, Dr. Walter Wernick, Director

Northern Illinois University

DeKalb, Illinois 60115

This book includes material for primary through twelfth grade (K-12). The first part of the book includes materials needed in the ABLE model program. Section two is devoted to classroom activities. Section three is a topic on utilizing the community. Unit four is questions and answers about the program. Career Education through teacher planning is unit five. Unit six is planning models using topics such as builders and the many jobs in that category. The last unit includes specific information about occupations.

8. Career Education K-6, (177 pages), Sept., 1971
Seattle Public Schools
Dept. of Occupational Education
2515 Boylston Ave. East
Seattle, Washington 98102

This guide was developed by a team of teachers and consultants during a summer workshop with Edna Hyatt, coordinator. For each activity a goal and objectives are given with evaluation to be determined. Suggested learning experiences and resources follow in a K-6 progression.

9. Career Related Instructional Procedures, 1971-72

(Table 10)

Career Education Program

New Albany City Schools

New Albany, Mississippi

There are two books in this project. Book One includes grades K-3 and 4-5. The second book is for grades 6-12. Units of Study, Instructional Procedures, and Resources and Materials are included in each book. Book One has 218 pages and Book Two has 110 pages. They are designed to assist the classroom teacher to carry out career-related activities within the framework of the regular classroom setting.

10. Communication and the World of Work, Summer, 1.972

(Table 11)

Alice Independent School District

Alice Texas

A 231 page book designed to increase an awareness to the world of work through communicative skills. This book describes the personnel involved in the summer program, responsibilities, objectives, pupils, workshops, planning materials, evaluation, recommendations, and more than 100 pages of units of instruction. The units range from grade levels K-7.

11. Creating Your Future, 1972

(Table 12)

Education Achievement Corporation

P.O. Box 7310

Waco, Texas 76710

An inquiry method leading to self-discovery carries the student through the 30 taped lessons. The median readability level is fourth grade, but the interest level is suitable for high achievers. Taped cassettes deliver the entire program, with reference to the "Thinking and Reacting manual" and "plan of action" manual. All directions, equipment, manuals, and cassette player are in the compact kit.

12. Guideline of Carcer Development Activities, Sept., 1971

(Table 1.3)

State Board for Vocational Education

Exemplary Project

900 East Boulevard Avenue

Bismark, North Dakota 58501

Materials included were researched and compiled by personnel in the Bismark public schools in conjunction with the State Board for Vocational Education, Larry Selland, director. This guide contains suitable units for grades K-12, with objectives, and appropriate subject and grade area given. The three column format includes activity, suggested technique, and resource materials.

13. Handbook For Occupational Awareness, 1971

(Table 14)

Houston Independent School District

Mrs. Mary Huckabee, Coordinator Houston, Texas

There are 3 books.

- 1. K-2 (102 pages)
- 2. 3-4 (58 pages)
- 3. 5-6 (revised 1972) (71 pages)

13.Continued

The books each have three specific categories. The first is an approach or core, then the curriculum guide, and last, the reference section. The approach (core area) for Book 1 is language arts; for Books 2&3, social studies. The curriculum guide lists activities and concepts. For each level instructional objectives, teaching activities and resources are given.

14. I Want To Be A..., 1972
Children's Press Books
Children's Press
Chicago, Illinois

(Table 15)

A series of colorful books that give information concerning many jobs. Pictures and reading level are appropriate to elementary age children. Some of the jobs covered are football player, fireman, airplane pilots, nurses, utility workers, etc. Very appropriate for elementary resource reading.

15. <u>Jobs from "A to Z"</u>, (69 pages) Frank E. Richards Publishing Co., Inc. Phoenix, New York 13135

(Table 16)

Workbook format covering job titles from A to Z. Each letter introduces job titles and worksheet exercises follow. Designed to introduce young elementary children to the many types of jobs available.

16. <u>Lincoln County Exemplary Program</u>, Grades 1-8 Lincoln County Schools Hamlin, West Virginia 25523 (Table 17)

This series consists of suggested resource units for grades 1-8. In the primary grades directions are given for the unit's completion. This is done by use of objectives, teaching strategies, and an appendix. Intermediate levels 4, 5, and 6 follow a similar format, with a unit centering on one vocational field. For grades 7 & 8 occupational clusters are used which can be introduced in the various subject areas. This book includes objectives, activities, evaluation forms, and suggested resource materials.

17. Motivation for Career Success, 1972
Education Achievement Corporation
P.O. Box 7310
Waco, Texas 76710

(Table 12)

The system's 30 lessons are presented in an audio format. Narrated cassettes reinforce the printed medium in manuals. "Thinking and Reacting" manual and "Plan of Action" manual give the student an opportunity to practice the learned skills. The kit is an instructional unit, with complete directions for student and teacher.

18. Occupational Orientation Program, (118 pages)
Pharr-San Juan-Alamo High School Vocational Bldg.
Pharr, Texas 78577

Sheets of pictures for coloring and games to play are included. There is no text for teaching, and the activities would be art projects to be used in primary grades. This material relates to the Pharr-San Juan-Alamo program. Pictures to be colored have one of three themes: (1) Life at Home (2) Life at School or (3) Life in the Community.

19. Our Working World--Families at Work, (280 pages), 1971
Science Research Associates, Inc.
259 East Erie Street
Chicago, Illinois 60611

(Table 18)

Hard-cover text for primary level use. Section One has illustrations, no text, which accompany 28 recorded lessons. Section Two has 27 lessons with illustrations for discussion and a text of stores. The sections correspond and overlap.

20. Our World, (160 pages), 1970
Taylor Publishing Company
P.O. Box 597
Dallas, Texas 75221

(Table 19)

This book is part of the company's social studies series. It develops concepts of the world through a seven issue program. Issues range from "Living Together in Our World" to "Our Values," with a variety of content sub-topics. These are textbooks with many colorful pictures. Teacher's guide for the units is included.

21. Pikeville Exemplary Education Project, (approx. 500 pages)
Pikeville Elementary School Book
Teacher Prepared Lesson Plans
Pikeville, Kentucky

(Table 20)

(Table 21)

This is a book of sample units and lesson plans written by the elementary, jr. high, and high school teachers in the Pikeville City School System. The theme for grades 1-3 is "Environmental Awareness" using "Family and Home," "Neighborhood," and "The City" as frames of reference. The fourth and fifth grades integrate world of work concepts into social studies. The sixth grade uses the communications cluster.

22. Vocational Development in the Elementary School

The Mid-Hudson Career Development and Information Center, (159 pages)
Robert W. Schreiber, Director
88 Sargent Avenue
Beacon, New York 12508

This publication is a curriculum resource guide designed to foster the vocational maturation of the elementary school child. The book is arranged in a horizontal format with tabs labeling the following categories; Philosophical, Sociological, Psych-Physio, Economic, Education and Appendix. Each page is divided into 5 areas. They are questions and facts, concepts, techniques, related concepts, and resources.

23. What Will I Be From A to Z, (32 pages), 1972
National Dairy Council
Chicago, Illinois 60606

(Table 22)

Written by Donald L. Gelb, this free soft-cover book depicts a job title for each letter in rhyming verses. Included is an individual chart for a child to guide his eating, health, grooming, etc. habits. These books are distributed free through the National Dairy Council regional office.

24. World of Work, Summer, 1972
Alice Independent School District
Alice, Texas

(Table 23)

This is a fifty-two page book that is printed in a horizontal format. It gives scope, activities, involvement, teacher purpose, correlations, relevancy, student goals, resources, resourcefulness, life related problems, evaluation, self-perception, concepts, culmination, and impact topics for each page. It covers grades K-7 and concepts such as "My Family at Work," "Who Works?," "What Are Their Jobs?," "Wonderful World of Work", etc.

25. World of Work

(Table 24)

Career Awareness Development Program for the Elementary Schools, (137 pages)
Gerry P. McGinley
Research and Educational Planning Center
College of Education
University of Nevada
Reno, Nevada

This book has individual units for grades K-5 with unit tests for each level. The sixth grade has 10 clusters and a unit test. The tests can be used as pre-and post-tests. The five basic attitudes taught in this program are dignity of work, work is important, community helpers are necessary, cooperation in work is necessary, work is important to the worker and society. Some of the clusters include agri-business, communications, construction, consumers, environment, fine art, etc.

26. Your World
Taylor Publishing Company
P.O. Box 597

(Table 25)

Dallas, Texas 75221

A set of colorful books to be used in special education, libraries, elementary classes, etc. There are seven series in each set. A series consists of 5 hard-cover gloss page books. Some of the titles include: Let's Visit the Post Office, Let's Visit the Railroad, Let's Publish A Book, etc. Each book has a picture on each page with one or two easy-to-read sentences about the pictures, and language development words.

- New Rochester Occupational Reading Series--The Job Ahead Text, (168 pages), 1963 Science Research Associates, Inc. (lable 28) 259 East Erie Street Chicago, Illinois 60611

This hard-bound book with illustrations is the accompanying text for the workbook series of the same title. The five workbook titles correspond to each of the five sections of the book. Readings in the text are supported with exercises in the workbooks. The readings are high interest level, low vocabulary that give job related information in each story.

19. New Rochester Occupational Reading Series, 1963-64 The Job Ahead - Workbooks Science Research Associates, Inc. 259 East Erie Street Chicago, Illinois 60611

(Table 28)

This series of five workbooks covers a variety of topics related to working situations. Each workbook centers on a theme such as Starting Work, On the Job, Keeping the Job, Working for the City, and Time Out for Leisure. Units consist of a story to read and related exercises. The teacher's guide for the series offers many suggestions for use, lesson plans, and charts.

Our Working World--Cities at Work, (295 pages), 1971 Science Research Associates, Inc. 259 East Erie Street Chicago, Illinois 60611

This hard-bound book, entitled Cities at Work, provides 18 lessons identifying a city, investigating a city, what is found in a city, and then relating these to selected cities in Europe and Asia. Illustrations, photographs, and text are used to present the material.

21. Our Working Word--Resource Unit-Cities at Work, (247 pages), 1967 Science Research Associates, Inc. 259 East Erie Street Chicago, Illinois 60611

Soft-bound guide which gives overview, suggestions for program operation and lesson plans. Lesson plans include purposes and concepts in a step by step numbered outline. Follow-up activities such as, stories, poems, and plays conclude the lesson.

22. Our Working World--Neighbors at Work
Science Research Associates, Inc.
259 East Erie Street
Chicago, Illinois 60611

This book covers fifteen lessons dealing with people who live and work in in the community. The hard-bound book includes illustrations, photographs, and text. The lessons include identification of neighbors, locations of neighbors, (rural, city, etc.) planning and change of neighborhoods, etc.

- 25. The Getting Along Series of Skills--Workbooks, 1963-1965 Publications (Table 29) Frank E. Richards Publishing Co., Inc. Phoenix, New York 13135

Series of four workbooks authored by Thomas J. Mooney. Each book carries a different theme title, but follows a common format and consists of three chapters. Also common to each is the inclusion of subject matter which covers spelling, word study, reading, projects, arithmetic, and exercises to reinforce newly introduced concepts. All of the skills center on the theme of career awareness.

26. <u>Useful Arithmetic--Volumes I & II</u>, 1972 Frank E. Richards Publishing Co., Inc. Phoenix, New York 13135 (Table 30)

These two workbooks offer exercises using math concepts and skills in a word problem situation. Topics for exercises include buying household goods, savings bonds, bills, wage deductions, cost of car transportation, etc. in Volume I. Volume II continues with the same format, with some of the same topics and introduces new problem titles.

(Table 32)

Hosterman Career Development Committeee

Hosterman Jr. Hi School

5530 Zealand Avenue North

Minneapolis, Minnesota 55428

Soft-bound guide book provides individual discipline packets for subject areas: English, Math, Science, and Social Studies. In each discipline the work is given by grade level, either for 7, 8, 9th grade. One grade level unit includes, career objectives, specific concepts, materials needed, and many possible activities.

6. Career Development Through Industrial Arts Experience, (110 pages) (Table 33)

A Learning Opportunities Package

College of Education

University of Minnesota

Minneapolis, Minnesota

This is a printed package intended to be used in the junior high school. The purpose is twofold: (1) to assist the junior high school industrial arts teacher in the translation of career development theory into practice through an interfacing of industrial arts goals and career development objectives, and (2) to provide student activities designed to facilitate accomplishment of industrial arts and career development.

7. <u>Career Education K-6</u> Seattle, Washington

See Group 1 - Item #8

8. Career Orientation Program--7th & 8th Grade, 1971
Toledo Public Schools
Dept. of Vocational Education
Toledo, Ohio

(Table 34)

Series of guide books which suggest ways to implement career guidance into each area of the seventh and eighth grade curriculum. Guides cover nine subject disciplines and outline the lessons to show how the subject is used in a career. Lessons are planned in outline form giving purpose, objectives, and activities. The series covers: Mathematics, Physical Education, Science, Foreign, Social Studies, Art and Music, Language Arts, Home Economics, and Industrial Arts.

9. Career Orientation Program--7th & 8th Grade
Toldedo Public Schools
Dept. of Vocational Education
Toledo, Ohio

(Table 34)

This fifty seven page book is designed to give an overview of the Toledo Public Schools Orientation Program. It explains the objectives, activities, and approaches of the various parts of the program. This is an implementation manual designed to be used for persons implementing career orientation for the first time.

14. Exploring Occupations
The New England Regional Commission and the New England School
Development Council Tri-State Vocational Project-Grades 7, 8, 9, 10

(Table 35)

These are resource books of student activities, with each grade level exploring a different phase of occupational awareness. Suggestions for field trips, discussions, test blanks, activities, job interviews, interest surveys, and various other topics are included.

15. Finding Your Orbit, (50 pages)
Chronicle Guidance Publications, Inc.
Moravia, New York 13118

(Table 36)

This booklet furnishes guidance activities that present a basic organized group program. It is designed to develop within the student the ability to think of himself in terms of his abilities, interests, and aptitudes. Some topics discussed are: Data, People, Things; General Education Development; Specific Vocational Development; Aptitudes; Interests; etc. A workbook can be used to help a student keep a record of his responses. This material is designed to help students find what careers they would like to read about and explore.

16. Guide for Occupational Orientation

(Table 37)

Pilot Program With T.E.A.

Consultant-Coordinators for Occupational Orientation Austin, Texas

Four books, each covers one grade level (5-8). These materials are resource books to help a teacher plan and execute occupational orientation through discussion, worksheets, and activities.

17. Guideline of Career Development Activities

North Dakota

See Group 1 - Item #12

18. Lincoln County Exemplary Program

See Group 1 - Item #16

19. McGraw Hill Leaflets, 1969

McGraw Hill, Inc.

530 W. 42nd Street

New York, N.Y. 10036

A variety of topics are presented in the 4 page leaflets. Each one is written by a different author, and the story conveys tips for getting along in a job. Discussion or opinion questions follow the sequence.

20. Motivation for Career Success

See Group 1 - Item #17

23. Occupational Investigation Grade 8, (71 pages), 1972

Pharr-San Juan-Alamo Independent School District

Pharr, Texas

Soft-bound book of career related lesson plans, with each being a complete unit. Also included are sample quizzes, vocabulary units and other matter related to the units. Each of the 16 lessons includes aim, aids needed, prerequisites for learner, references, student preparation, discussion, application, and evaluation.

24. People and Choices -- Career Folios, 1971

Harcourt Brace Jovanovich 4640 Harry Hines Blvd.

n 11 m 75005

Dallas, Texas 75235

The career folios each focus on a particular career cluster. Each of these explores how one person prepared and succeeded in a career. There is a teacher's guide to accompany the program. Stories are of real people, with manageable vocabulary, and make use of many photographs.

(Table 38)

(Table 39)

25. Pikeville Exemplary Education Project

See Group 1 - Item #21

26. Resource Guide for Career Development in Junior High School

(Table 40)

Division of Instruction

Pupil Personnel Service Section

Minnesota Department of Education

St. Paul, Minnesota

This is a resource book of learning activities. The broad objectives are stated, followed by performance objectives and behavioral objectives. Listed in column form are the learning activities, related subject and/or skill areas and the suggested resources. An annotated list of resources follows in a back section. The materials include forms, inventories, quizzes, planning sheets, and many more.

27. The Greatest Business in the World

(Table 41)

The Story of Your Future in Food Distribution

National-American Wholesale Grocers' Assoc.

60 Hudson Street

New York, N.Y. 10013

This is a nine page booklet that gives information about food distributors. There are many pictures, and the format is in the form of questions and answers. This booklet is to be used after viewing the film, The Freedom to Succeed.

28. The Social Contribution of Work, (26 pages)

(Table 42)

College of Education University of Minnesota

Minneapolis, Minnesota

This package is designed to help students examine their own ability and attitudes to see how they can contribute to society through work experiences, to foster a realization of the value and importance of work, and encourage vocational abilities to meet the changing needs of society. Terminal goals, enabling objectives, and learning experiences are presented for different concepts throughout this package.

29. Unit I--The World of Work, 1971

(Table 43)

Teacher's Guide to Group Vocational Guidance,

Units I, II, III (65 pages)

Bellman Publishing Company

P.O. Box 172

Cambridge, Mass. 02138

Each of the three units provides aims, motivational tips, procedure, summary, assignment, and resources in a compact lesson plan. "The World of Work," "Knowing Yourself," and "Securing a Job and Progressing in It" are the unit titles. This is suitable high school level material.

- 14. Occupational Orientation, (203 pages), 1971
 Curriculum Coordinating Unit
 Mississippi State University
 P.O. Drawer DX
 State College, Mississippi 39762

(Table 50)

Format of this volume is a question and answer series covering seventeen topic areas. Review questions and suggested activities are found at the end of each chapter.

15. Occupational Oriented Mathematics Curriculum, (68 pages) 1967 (Table 51)
Summer Curriculum Revision through Industrial and Business Experience
Compton Union High School District
Compton, California

Resource book of specific materials and occupationally-oriented problems for teachers to use. The book covers basic operations in arithmetic, formulas-ratio-proportion, square root-right triangles, measures, and more. Format consists of a series of problems in each area mentioned above.

- 16. People and Choices--Career Folios, 1971 See Group 3 - Item #24
- 17. Satisfactions and Rewards of Work
 A Learning Opportunities Package
 College of Education
 University of Minnesota
 Minneapolis, Minnesota

(Table 52)

A 10 page booklet based on a research program at the University of Minnesota. This package provides experiences whereby students would become aware of the kinds of occupations which are potentially satisfying to them. Terminal performance goals, enabling objectives and learning experiences are used to present information about the topics.

18. Self Concept Exploration

(Table 53)

A Learning Opportunities Package College of Education University of Minnesota

Minneapolis, Minnesota

This learning opportunities package attempts to combine the processes of self-discovery and career exploration. It provides experiences whereby the student can explore his self-concept, test this against the image he projects to others, identify his "ideal" self-concept and work toward becoming that ideal self.

19. Significant Others

(Table 54)

A Learning Opportunities Package College of Education University of Minnesota Minneapolis, Minnesota

This learning package provides opportunities for the student to try to discover how and why significant others influence his career development, and also how his career behavior and plans affect others in his life.

20. SRA--Job Experience Kits

(Table 55)

Science Research Associates, Inc. 259 East Erie Street Chicago, Illinois 60611

Twenty different occupations are simulated in the job experience kits. Using the principle of role-playing, the student gets a feel for working on the job. Some kits are equipped with tools, and all have a booklet of directions and pad of answer sheets.

21. Texas Health Careers Program, 1969

(Table 56)

Texas Hospital Education and Research Foundation, affiliated with Texas Hospital Assoc. P.O. Box 4553

Austin, Texas 78751

This is a synopsis of health career programs and a recruitment program for the health care field. Posters, pamphlets and various other types of printed materials are used to portray the many kinds of health careers. Addresses for further information are also given.

Supplemental List of Career Education Materials That Were Not Evaluated

1. Career Awareness starring Popeye

King Features
David M. Mercer, Dir., Education Division, Special Services
235 East 45th Street
New York, N.Y. 10017

A set of comic books with a Career Education theme. The main character is Popeye the Sailor who visits with people in all kinds of jobs in the world of work. The topics include Health, Environmental Control, Manufacturing, Transportation, Communications and Media Construction, Marketing and Distribution, Agri-Business, Marine Science, Public Services, Personnel Services, Hospitality and Recreation, Fine Arts and Humanities, Consumer and Home-Making Related, and Business and Office.

2. <u>Career Education Center</u> Harlandale School District 3706 Roosevelt San Antonio, Texas

The Career Education Center has developed many career curriculum guides to be used in teaching Career Education in the public schools. A horizontal format is used with columns for Suggested Teaching Methods, Resource Materials and Teacher's Comments. The titles of some of the guides are listed below:

- 1. Biology I
- 2. Algebra I Algebra II
- 3. Math 6, 7, 8
- 4. Fundamentals of Math 1 & 2
- 5. Reading 7th Grade
- 6. World History Studies
- 7. 9th Grade General Physical Science
- 8. English Grade 7
- 9. Texas History and Geography
- 10. American History 1865 to Present
- 11. American History to 1865
- 12. Career Curriculum Guide-Kindegarten
- 13. Career Curriculum Guide Grade One
 - 14. K-5 Music

3. Follow Up Grades 8-12

(Same address as above)

The purpose of this book is to help develop a program of occupational follow-up for every student leaving school. This book shows material used by the Career Education Center for follow-up activities.

4. Job Placement

(Same address as above)

This book is designed to give some guidelines used by CEC to facilitate job placement. The placement service is described and objectives for job placement given. The second half of the book gives information that counselors, teachers, etc., can use in counseling applicants prior to job seeking.

5. Elementary Methods and Resource Guide

Career Education Center Harlandale School District 3706 Roosevelt San Antonio, Texas

This Guide has been compiled to provide elementary teachers with suggestions for career teaching-learning activities, bulletin board ideas and a bibliography. This is to be used as a supplement to the career-curriculum guides.

6. Job Clusters (Same address as above)

Selections from fifteen clusters from the <u>Dictionary</u> of <u>Occupational Titles</u> have been made and summarized to acquaint the reader with a brief description of each cluster.

7. Audio-Visual Aids (Same address as above)

This booklet is a compilation of all the career education audiovisual materials for all grade levels in the Harlandale School District. The items presented in the booklet have been excerpted from Harlandale's present Audio Visual Dept. catalogs and supplements.

8. Bibliography (Same address as above)

This is a selected bibliography of occupational literature available in the Harlandale Elementary Central Library. This is a 17 page booklet.

9. Career Education Center Elementary Supplementary Booklets (Same address as above)

A group of booklets designed to give basic information concerning jobs and career information. They can be used as coloring books and have very few words in some of them. Titles include:

- 1. What I Want To Be Book I
- 2. What I Want To Be Book II
- 3. Come Fly With Us Commercial Airline Industry
- 4. I Can Hardly Wait!
- 5. When I Grow-Up--Book I
- 6. When I Grow-Up--Book II

10. How To Choose A Career--A Guide to A Successful Career

Harry J. Gaffney

Study Books, Inc.

P.O. Box 21

East Rockaway, N.Y.

A sixty-four page booklet that discusses topics such as Going to College?, Meet Your Employer, and twenty-five specific job areas.

11. Career Opportunities
Career Information Service
New York Life Insurance Co.
Box 51, Madison Square Station
New York, N.Y. 10010

A 420 page paperback book that presents job information on fifty-seven different specific jobs. This book is a compilation of fifty-seven career advertisements that were printed separately by the New York Life Insurance Co.

12. Implementing A Career-Centered Curriculum in the Public Schools of Mississippi Dalton Anthony, Dec. 1972

New Albany City Schools

P.O. Box 771

New Albany, Mississippi 38652

This informative book tells of the major activities and accomplishments of the Career Education projects in New Albany. Elementary Career Activities, Middle School Career Activities, and High School Career Activities are presented with objectives and activities for each level. Some significant findings and events are listed.

13. Career Education, July 1972
A Handbook for Program Initiation
State Department of Education
Division of Vocational-Technical Education
Jackson, Mississippi 39205

This is a 129 page book that is designed to give ideas, sample activities and other information to classroom teachers, counselors, career education leaders, etc. Topics include:

- 1. Introduction to the Career Centered Curriculum
- 2. Responsibilities of Personnel,

the Administrator,

the Career Educator,

the Occupational Orientation Teachers,

the Counselor,

the Teacher,

the Teacher Aids.

- 3. Career Centered Curriculum Concept Chart

- 5. Sample of Career Activities Elementary School Middle School

High School

14. <u>Career Development: K-12</u>
Public Schools of Anne Arundel County

Annapolis, Maryland 21401

This is a sequential interdisciplinary program based on skills, attitudes, behavior, and experiences necessary for vocational decision-making. The conceptual framework uses five major areas for career education; career, self, society, technology, and economics. Four learning levels are correlated to grade levels in the four book series; K-2, 3-5, 6-8, and 9-12. The concept, subconcept, and behavioral objective are given, followed by activities suitable to the classroom curriculum or subject.

15. Development of a Career Exploratory Program for Students Enrolled in Grades 6, 7, 8, and 9

Dr. Robert C. Roberts, Dir. of Vocational Programs Renton School District No. 403 Renton, Washington

This is a final report of the Renton School District's middle level Career Education program. The book presents the background and elgibility of those involved in the program as well as problems, objectives, and procedures. Some interesting results and conclusions are given that could be very useful to those involved in new Career Education programs. The largest part of the book is the appendix which gives information concerning:

- A. Schedule--Career Exploratory Program
- B. Interest Survey...
- C. Interviews
- D. Job Analysis--Categories
- E. Occupations for the State and Nation-1970's
- F. Letter to Parents Re: Interest Survey
- G. Administration Sample--Interest Survey
- H. Results of Interest Occupational Survey
- I. Frequency of Distribution of Occupational Choices
- J. Utilization of the Skill-Concept Clusters

Bibliography

16. Development of a Planned Occupational Awareness Program (K-5) - Final Report
Dr. Robert C. Roberts, Dir. of Vocational Programs
Renton School District No. 403
Renton, Washington

This report concerns itself with the development activities of the awareness stage of Renton School District 403's Career Education program. This booklet explains how a career awareness program for introduction in grades Kindergarten through 5 was developed. Objectives, procedures, and a summary are presented in this report. This report could be used by people responsible for instituting new Career Education programs.

17. Career Education In-Service Training Guide

Career Programs
General Learning Corporation
250 James Street
Morristown, New Jersey 07960

This is a forty-six page booklet designed to be used with General Learning Corporation's <u>Career Education</u> <u>Resource Guide</u>. The four areas covered are:

- 1. The Background From Which Career Education Has Emerged
- 2. A Survey of the Present State of Career Education.
- 3. Implementing Career Education
- 4. The Challenge Is Yours!
- 5. References

18. Curriculum Materials Developed by Pace Projects

Office of Information Dissemination

Attn: Virginia Cutter Texas Education Agency Austin, Texas

A 48 page annotated bibliography developed by the Program Dissemination Section Division of Plans and Supplementary Centers. Contact persons are listed for each entry which covers topics such as agriculture, specific subject areas, games, etc.

19. Career Education

Edited by C. A. Borman and R. R. Reilley College of Education
Texas A&M University
College Station, Texas 77843

This is a 107 page book that contains the proceedings of the Texas A&M University Vocational Guidance Conferences held in the Spring of 1972. Authors include R. R. Reilley, R. E. Campbell, B. Shoemaker, K.B. Hoyt, J. L. Holland, J. V. Clark, T. P. Olivo, and C. A. Borman. The topics include:

- 1. Career Education--A Preview
- 2. Planning Career Development Programs
- 3. A State Plan for Career Education
- 4. The World of Work: A Component in Career Development Programs
- 5. Vocational Guidance with the Self Directed Career Program
- 6. Career Development Trends in Texas
- 7. Profiles in Leadership
- 8. Career Education--Reflections

20. Career Education 1972

An Annotated Bibliography of 173 References Career Education Box 53, Purdy Station New York, N.Y. 10578

A one hundred page book of references compiled in the summer of 1972. They represent recent and significant articles, speeches, dissertations and reports concerning Career Education.

21. Vocational Guidance in the 70's
Edited by C. A. Borman and R. R. Reilley
College of Education
Texas A&M University
College Station, Texas 77843

A report of the Vocational Guidance Conferences sponsored by Texas A&M's College of Education in the Spring of 1971. Chapters two through five discuss the various conferences while chapters one and eight discuss vocational guidance in the 70's. Chapter One is a preview and Chapter Eight is reflections of vocational guidance. Other topics are "A Model for American Education" and "Profiles in Leadership."

22. Career Education and the Technology of Career Development (267 pages), 1971
American Institutes for Research
P.O. Box 1113
Palo Alto, California 94302

This volume tells of the proceedings of the eighth invitational conference on systems under construction in career education and development. The four sections are concluded with appendices.

23. The Group Guidance Program (178 pages)
Vocational Guidance Service
Houston, Texas

This manual assists in setting up a group guidance program. Four sections of the book provide information on group guidance, mechanics of setting up a program, staffing program counselors, and evaluation.

24. A Careers Curriculum (53 pages), December 1971
(A draft copy)
The Center for Vocational and Technical Education
The Ohio State University
1900 Kenny Rd.
Columbus, Ohio 43210

This manual focuses on the need for Career Education, charts, tables, and functions of the career curriculum. The case studies show how a careers program should operate within the general framework of the student's potential. Seven case studies with discussion are presented.

25. World of Work--K-10 Continum (128 pages)
Warren City Schools
Dept. of Career Education
Box 391
Warren, Ohio 44482

Concepts for this book are divided into areas appropriate for primary, intermediate, upper elementary, junior and senior high. The primary level begins with the child in relation to his family and builds to the senior high concept of aiming to find a future in society. This is not a guide for the Warren Program, but an overview and composite of the content.

26. Career Motivation (81 pages)
Curriculum 3-4-5-6
Warren City Schools
Box 391
Warren, Ohio 44482

This is the curriculum guide for use in the classroom. The book's format gives grade level where applicable, the title of the section, a short definition of the title and basic generalizations about daily living and working which pertain to the topic.

27. K-12 Guide to the Integration of Career Development into Local Curriculum (265 pages)
Wisconsin Department of Public Instruction, December 1971

This guide is a composite of teacher developed career projects, aimed toward presenting a model for a career curriculum. For accomplishing this goal, the book offers five areas: (1) conceptual career development model, (2) overriding broad concepts, (3) examples of general objectives, (4) scope and sequence matrix, (5) and aid for use by local school personnel. The material is divided into topics suitable for a designated grade level.

28. Introduction to Vocations (240 pages), 1968
H. E. Beam & J. R. Clary
Division of Vocational Education
North Carolina Dept. of Public Instruction
Raleigh, North Carolina

This book contains a course outline comprised of six units. A twenty-five page introduction to the teacher gives suggestions and activities for course procedure. Each of the units is written in an outline form, with suggestions for teaching--learning activities provided. The subconcepts in each unit are divided into instructional goals and include the level of performance required. Bibliography and appendices conclude the manual.

29. An Evaluation of the Indiana Career Resource Center, July 11, 1972
Indiana University at South Bend
South Bend, Indiana 46615

A study conducted as an educational learning experience by three teachers in graduate study. Pertinent information concerning staffing and responsibilities of the Indiana Career Resource Center is given. The related research and methods of gathering data for the project are given in subsequent sections. This is a very valuable booklet for anyone interested in starting a resource center.

30. View For the World of Work--Teacher's Guide, Jan. 1970--Revised June 1970
Produced by Regions XIX Education Service Center
El Paso, Texas

VIEW (Vital Information for Education and Work) for the handicapped is a program funded under the Elementary and Secondary Education Act, Title VI, in cooperation with the Texas Education Agency. The Introduction section explains the VIEW program while other sections include:

- 1. What Work Is
- 2. Why Work
- 3. Where To Find This Work
- 4. Things To Do Before You Get This Work
- 5. What You Do In This Work
- 6. What This Work Will Pay You
- 7. Hours You Will Work
- 8. What You Should Know About This Work
- 9. What A Worker Must Be Like
- 10. How School Will Help You In This Work

31. Career Development K-6--Resource Materials

Career Education Project
Dr. James E. Smith, Director
1320 Southwest Fourth St.
Fort Lauderdale, Florida 33312

An Annotated bibliography compiled by the members of the Career Education Project Team. This forty-six page bibliography is divided into three sections. They are:

- 1. Personal Development
- 2. The World of Work
- 3. Occupations: Alphabetical Listing

32. <u>Career Education in Broward County</u> (See above)

This is a booklet that lists the personnel associated with the Career Education Project in Broward County and explains the career education concepts held by them. 'Implementing Career Education In Broward County' is the title of the other section. This booklet would be a valuable source for those people involved in setting up new career education projects.

33. Careers Into Curriculum, Revised, March 1973

How To Implement Career Education Into Current Curriculum
By Bettie McConb
Nova Schools
Fort Lauderdale, Florida

"Careers Into Curriculum" is a guide for the educator who is interested in building into his already existing curriculum sound elements of career education. This booklet is divided into two sections. Section I provides input concerning new concepts of Career Education. Section II contains sequenced work sheets which allow the participant, on a individual basis, to build his own career awareness unit.

34. Suggestions for Junior High School Counselors' Involvement in Project TACO (Technology Assisted Career Orientation) July 16, 1971

By James R. Bartos

Brooklyn Junior High School

Independent School District No. 279

Osseso, Minnesota

Project TACO is a project aimed at making curriculum in District 279 more relevant. Summer writing teams of elementary, junior high, and high school teachers have been involved in writing flexible unit plans for their grade level or subject area. This booklet presents what the author calls "brainstorms" on how junior high counselors could become involved in career planning with junior high students.

35. World Of Work, 1971
Career Program K-6
Dept. of Vocational Education
Toledo Public Schools
Toledo, Ohio

Toledo's World of Work Program is designed to provide the student with an opportunity to look at himself in relation to the world around him. This book explains the structure of the World of Work Program of the lower elementary and upper elementary phases of the program. Responsibilities of various personnel involved, in-service education, field trips, resource speakers, hands-on experiences and evaluation are discussed. Idea Units for lower and upper elementary grades and Coordinators' Recommendations are titles of other sections in this very well written book.

36. The Implementation of a Comprehensive Occupational Education Program in a Rural School System and The Role of the Counselor, June 23, 1970 Center for Occupational Education North Carolina State University at Raleigh

A program presented at The National Inservice Training Multiple Institutes for Vocational and Related Personnel in Rural Areas. The objective of the institute was to provide participants with a more complete understanding of the needs for career orientation programs and a closer look at new concepts and exemplary programs. This booklet is designed to provide participants with a "first look" at one exemplary program that is to be implemented in a rural setting in North Carolina.

37. Bibliography of Elementary Vocational Guidance Materials
Minnesota Department of Education
St. Paul, Minnesota

A bibliography of thirty-three sources of information concerning elementary vocational guidance. All of the sources are easily found and appear to be very pertinent to elementary schools

38. Career Education Materials Available Through the Instructional Materials Center of Region IV Education Service Center Region IV Education Service Center Houston, Texas

This is a listing of available materials in Region IV's Service Center. Section I is a source of General Information. Section II is Resource Guides and Projects, and Section III lists Texas Projects. Attached to this listing is an extensive listing of Career Education catalogs and Career Education project information. Books, films, tapes, pamphlets and brochures are also listed.

39. Partners in Career Education

Research Report No. 72-01
A Review of Career Education Literature and Projects
Dr. Elvis H. Arterbury, Director
Suite 130
1201 N. Watson Rd.
Arlington, Texas 76011

This report is presented in five sections including:

- 1. Summary of Survey
- 2. Materials of Particular Significance to Partners in Career Education Project
- 3. Annotated Bibliography
- 4. Bibliographical Listings of Career Education Literature
- 5. College Course Offerings Related to Career Education

This report is rather extensive and would be very useful to anyone interested in starting a career education project. It is very well written and very easy to use.

40. Career Education--Second Interim Report (35 pages), Sept. 1972
Watertown Public Schools
435 10th Ave. Northwest
Watertown, South Dakota 57201

This booklet is divided into two sections, first a summary of the report and second the more lengthy body of the report. The subject matter deals with results of the second year of the Career Education program in Watertown. Problem areas, goals, procedures, and evaluation are dealt with in the report.

Abstracts of Instructional Materials for Career Education, (1972)
The Center for Vocational and Technical Education
The Ohio State University
1960 Kenny Road
Columbus, Ohio

Materials indexed and abstracted in this publication include curriculum units, teacher guides, handbooks, and career related instructional aids. A grade level index is found in the back which gives further access to the materials.

42. Selected Career Education Programs for the Handicapped, (107 pages) U. S. Government Printing Office Washington, D.C. 20402

This publication gives easy reference to programs already in use. The listing is by state and the type of handicap is designated. A program is briefly described giving number of students involved and supervisor in charge of the program. The majority of programs are for the EMR student, and these are school related activities of a work-study nature.

43. Synopsis-Cobb County, (8 pages) Occupational and Career Development Program Joel Smith, Director P.O. Drawer R Marietta, Georgia 30061

> This booklet tells how the project grew from the initial funding in 1969. From in-service meetings with teachers activity-centered units were written. Goals were set out, and these elements incorporated into all units. This synopsis explains the Cobb County Project and its continued efforts.

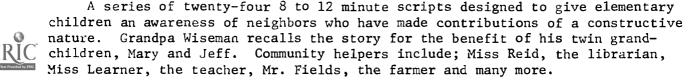

44. Vocational Decision QED Productions Can be obtained from: Melton Book Company, Inc. 111 Leslie Street Dallas, Texas 75207

> Three color filmstrips and three 8 to 10 minute taped cassettes make up this kit. The three lessons are entitled; An Introduction to Vocation, The World of Work, and Counseling in Vocational Decision. Each lesson is accompanied by a brief study guide and script.

45. Life Career Game Western Publishing Company, Inc. School & Library Department 850 3rd Avenue New York, N.Y. 10022

> A game that enables students to walk through a span of eight years in the future, as the decision-makers for a fictitious person presented to them in the form of a profile or case history. Each team of decision-makers is in competition with other teams working with the same profile. Planning is in the form of how this person will spend a typical week during each of the eight years.

46. Footnotes to Community Helpers H. Wilson Corporation 555 West Taft Drive South Holland, Illinois 60473

47. Come to Work With Us...

Sextant Systems Inc.

Information Systems & Services Inc.

P.O. Box 1231

Milwaukee, Wisconsin 53201

Library series of books which present the essential details of a job explained in verse form. Each book is illustrated in full color photographs with children in grownup job situations. There are twenty books in the series and a teacher's guide is available.

48. Human Relations Kit

Webster Division McGraw Hill Book Co. 8301 Ambassador Row Dallas, Texas 75247

Participants using this kit in small groups are given the opportunity to test personal perceptions and feelings. Active involvement in the learning process is accomplished through role playing, exercise simulation and action-orientation problem solving. Some of the training exercises include:

- 1. Name Learning
- 2. Preventing Job Problems
- 3. Personal Appearance
- 4. Punctuality
- 5. Trust
- 6. Group Talk
- 7. First Impressions
- 8. Group Performance Evaluation
- 9. Earning Your Pay

There are twenty-two such exercises. This kit is in a very handy and portable case with complete materials and instructions provided.

49. American Occupations Series

Creative Visuals Box 1911-0-9 Big Spring, Texas 79720

The complete set of 198 lessons is recorded on cassettes. Each lesson is 15 minutes in length. Tapes describe the necessary training, obstacles and rewards of almost any vocational endeavor.

50. Jobs in Health Service

Coronet Films

65 E. South Water Street

Chicago, Illinois 60601

Eight filmstrips and eight cassettes in a correlated package to provide specific information on a typical work day in the occupation presented. "Jobs in Health Service" shows people involved in their life's work. Included in the kit: Nurse's Aide, Optical Technician, Dental Assistant, Radiology Technician, and four more.

51. Sextant Series For Exploring Your Future
Sextant Systems, Inc.
Information Systems & Services Inc.
P.O. Box 1231
Milwaukee, Wisconsin 53201

This is a series of 16 independent volumes of occupational information describing 1,450 jobs, 16 organizational charts 34" x 42", a cross index containing alphabetical cross-references for all job titles in the series, and student personal profile booklets. A 5-step plan for career exploration include student self-analysis, introduction to career information, independent research, follow-up research and individual counseling. The Personal Profiling Form has a plastic overlay which enables the student to transfer his profile to any of the jobs explored in the 16 books. This profile can then be matched with actual individuals in such jobs. A minimum expenditure of instructional time is required by teachers or counselors.

52. Career Preparation Through Effective High School Program Planning (Same address as above)

A kit designed to enable students to develop a high school program of courses. The kit includes a student workbook, instructor's manual, high school program planning guides, and job information cards in three levels. These levels include on-the-job training, technical or 2 year schools and college. The student is asked to first determine his ultimate career goal and then match high school courses that correspond to such a goal. The cards give some brief job facts and D.O.T. numbers for further reading in that area. Also recommended high school courses are listed on the card and the amount and kind of training necessary for such a job. This is a systematic approach to high school planning.

53. <u>Career Information: A Directory of Free Materials for Counselors and Teachers</u> (Same address as above)

This three-hundred-nineteen page book has three major parts. They are; 1) Alphabetical Listing of Sources of Free Guidance Materials, 2) Listing of Titles by Occupational Area, and 3) Alphabetical Listing of Job Titles. In Part Three there is a "Guide to Local Occupational Information" and "Guide to Federal Career Literature."

54. Open Door Books--They're Not Famous But They Made It Children's Press Chicago, Illinois

A series of thirty-three low vocabulary, high interest level books about minority people that set out to accomplish something in life and did it. Examples of some titles can best illustrate this point. West Side Cop, about a negro man that was raised on the west side of Chicago. Hey Taxi, about a black taxi driver who is happy doing his job. I Reached For The Sky--about an airline stewardess that never thought she could make it. Each book gives information concerning the type of job, the nature of work, place of employment, training, and employment outlook.

55. The Career Game
Educational Progress Corporation
8538 East 41st Street
Tulsa, Texas 74145

The Career Game is a guidance tool for use with students in the eighth grade through college. The kit includes a guide, 398 cards of information, core pad, a filmstrip and a cassette. The aim is to take the participating students on a search of career possibilities which ends in a choice that cannot be predicted in advance. Decisions are based on the advice read from the cards. All career cards list an address where further information may be received.

APPENDIX C

Cooperative Project in Career Education

Evaluation Form for Career Education Materials

Name	e of Product
Grac	le Level of Product (Circle as many as appropriate).
	K, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
Name	e of Reviewer
eac	ching Level of Reviewer (Circle as many as appropriate).
a .	K, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12
٠.	Area of Specialization
	iew of Materials Objectives
a.	To what degree were the objectives clearly stated.
	Very Very Unclear Clear (Put an X on the appropriate point)
•	To what degree were the objectives appropriate to your grade level.
ŗ	Much Too Low Too High (Put an X on the appropriate point)
z .	To what degree were the objectives grouped (sequenced) to fit your grade level.
ľoo	Much Little Too Much (Put an X on the appropriate point)
d.	Compared to other materials (excluding career education) how would you rate the usability of the <u>objectives</u> in this material.
	Very Very
	High Low (Put an X on the appropriate point)

con	tinued
e.	Make any comments that you wish about the objectives.
Pov	riew of Material's Organization.
	To what degree are the materials well organized.
a.	
	Very Very Poor Poor (Put an X on the appropriate point
	
ъ.	To what degree are the materials organized to fit your grade level.
	Very Well Poor (Put an X on the appropriate point
	Well Poor (Put an X on the appropriate point
c.	Make any comments you wish about the organization of these materials.
